

Builds AI applications and automation for real businesses. Founder of Verdorian Technologies: six live products in insurance, construction, and safety, all built with **agentic coding tools (Claude Code, Codex, Cursor)** and LLM APIs. 8 years turning messy compliance data into clean systems, dashboards, and business intelligence in regulated industries.

CORE SKILLS

AI & Automation

Claude Code (agents, MCP servers, hooks) · Codex · Cursor · Anthropic API · OpenAI API · Gemini · Prompt engineering · n8n

Languages & Web

TypeScript · JavaScript · Python · SQL · Next.js · React · React Native (Expo) · Node.js

Data & BI

PostgreSQL · Supabase · KPI dashboards · Looker Studio · Excel (advanced) · Reporting pipelines

DevOps & Tools

Vercel · GitHub · CI/CD · EAS Build · Stripe · Sentry

CERTIFICATIONS

- **AIGP (AI Governance) and CIPP/US (Privacy)** · IAPP · in progress
- **Prompt Engineering: AI & LLMs** · Zero to Mastery · 2025
- **OSHA 30-Hour General Industry**

EDUCATION

- **B.S. Communications**
Independent University

WHY ME

- Works with AI daily: 20+ Claude Code agents, custom MCP servers, and automated review pipelines.
- Deep experience in compliance-heavy fields where AI output must be accurate and auditable.
- Ships end to end alone: design, build, data, security, billing, deploy, support.

PRODUCTS — VERDORIAN TECHNOLOGIES (FOUNDER)

QRSafePro

qrsafe.pro · live

Next.js · TypeScript · PostgreSQL · Claude API · Stripe · Vercel

- Multi-tenant SaaS for equipment inspections and AI-generated OSHA documents, used daily by industrial field crews.
- 70 REST API routes, 182 database security policies, tamper-proof audit ledger, background jobs, three-tier Stripe billing.

VoicePencil

iOS · App Store pending

React Native · Expo · Supabase · OpenAI · Deepgram · RevenueCat

- AI voice notes app: transcription, 16 AI content transforms, YouTube learning, and semantic search across 12 serverless functions.
- Free and Pro tiers with RevenueCat billing; App Store submission automated with Claude Code agents.
- **PolicyPilot** (live): AI reads carrier PDFs and fills 302-field insurance ACORD forms, then builds branded client proposals.
- **ChangeOrderAI** (live): AI agent that drafts construction change orders from jobsite events, with cost tracking per call.
- **Client websites** (live): knightelectric.net and bigdaddysfishing.com, both solo builds on Next.js.

EXPERIENCE

Software Developer & EHS Manager

2024 – Present

Knight Electric, Inc. · Clarksville, TN

- Built the company's internal tools, KPI dashboards, and website, replacing paper workflows with automated digital systems.
- Run QRSafePro in production; keep 99.5% accuracy across 200+ weekly compliance records with BI reporting for leadership and clients.

Data Specialist | EHS

2023 – 2024

Amazon · Clarksville, TN

- Tracked incident and safety metrics in high-volume, metrics-driven operations; standardized documentation and reporting workflows across teams.

Data Analyst | EHS

2020 – 2023

Jostens · Clarksville, TN

- Designed data schemas and reporting pipelines; managed 500+ inspection records a month with zero compliance errors.

EHS & Data Coordinator

2018 – 2020

LG Electronics · Clarksville, TN

- Built recordkeeping and compliance-tracking systems for a new plant; kept 100% accuracy on OSHA records.
